

Important information on dealing with COVID19 and HerpesVirus

Dear riders,

due to the ongoing COVID situation and the current measures, you must arrive WITH a corona test. This must not be older than 48 hours and must be confirmed by a doctor, pharmacy or similar. Both tests (rapid and PCR) are permitted. Furthermore, a mask is required on the ENTIRE FACILITY. The common MEDICAL MASKS, FFP2 MASKS and everyday masks made of fabric are allowed.

COVID measures apply which are as follow:

- Mask compulsory on the entire facility
 - Stables, entire parking lot, catering area, training and show areas, sanitary facilities, etc.
 - The only exception is the rider while riding
- A minimum distance of 1.5m must ALWAYS be observed
- No groupings in the entire area
 - in Italy, only one household and a maximum of one other person who does not belong to the household are allowed to stay together
 - Please do not have a barbecue, lunch, or coffee together
 - When riding, please ensure that enough distance is kept between both riders and horses! (COVID & Herpes)
 - Please ensure that your hands are adequately disinfected
 - Disinfection points are set up everywhere

Procedure for arrival

1. At the checkpoint at the entrance: control of the corona tests and the temperature, submission of the contact details of all persons. (Please fill in everything and bring it with you)
2. Issuing of a bracelet to all riders/grooms/trainers/helpers
 - only people with a bracelet are allowed to stay on the entire facility
3. Arrival in the stable tent meadow (parking instructions must be followed scrupulously!)
4. Collecting passports, self-declarations and traces (Modello 4 for Italy)
5. Unloading the horses

6. Control of all horses, passports and temperatures
 - if a horse exceeds a temperature of 39,0°C or shows symptoms, the horse/horses are not allowed to enter the stables until a PCR Test is taken and results are received
 - the checklist must be attached to each box, at all times accessible to our vet team. The temperature of each horse is to be measured twice a day (morning before 7a.m. and evening until 5p.m.). If there are any symptoms or abnormalities in the temperature course during the event, a PCR test is carried out and the horse is placed in quarantine.
7. Allocation of the boxes, unloading of equipment and stabling.
8. Allocation of parking space (the instructions of the stewards must always be followed!)

Arrival times

Daily arrival between 9 a.m. and 7 p.m.

Any rider must communicate by mail (info@marinacima.com) or whatsapp (+393496171740 Marina Cima) even his horse is vaccinated or not against HerpesVirus.

Emergency

In an emergency, please contact following numbers

- +39 333 83 18 266 (Simone Sordi /organizer)
- +39 380 7766422 (Vet H24)

Fortunately, a local restaurant can offer meals, which can then be picked up at the tent meadow. It's not possible to eat at the restaurant.

In order to speed up the documentation check and the unloading of the horses we kindly ask you to send us the page of passport with EHV vaccinations and a copy of the Traces (model 4 for Italy) where the names of the horses are clearly shown.

Please send these documents via

Email (info@marinacima.com)
